1 La Salle: Together we can globalise solidarity!

The Institute of the Brothers of the Christian Schools presents its **new campaign 1 La Salle**, an audacious initiative led by the Office of Solidarity and Development, at the request of Br. Armin Luistro, Superior General, and supported by La Salle Foundation and the Office of Information and Communication.

"Is it possible that we can join together as one Lasallian Family? Can we dream of a thousand more scholars in each of our schools in the world? **Maybe if we dream together what may look like a huge obstacle can become a reachable goal, not impossible if we work together**", Brother Armin remarks on this commitment to solidarity without borders that benefits the most impoverished and vulnerable in diverse regions and realities globally.

Two ways to participate

To make this dream come true, from the website **www.lasalle.org/en/1-la-salle** you can participate in the campaign in two ways: through a **donation** to support educational programmes in the most fragile and needy contexts worldwide, through La Salle Foundation.

Another way to participate is by putting yourself at the service of the most vulnerable through a **volunteer** experience that can be carried out locally or internationally, initially by filling out an online **form**.

From the perspective that we are one Lasallian family, 1 La Salle intends to involve Lasallians, communities, schools and, in general, all people of good will, in the certainty that we can all **make 1 global impact possible to change the world through education**. To this end, a toolkit of communication resources has been made available to Districts, Delegations and Regions to advertise and invite everyone to join the 1 La Salle campaign.

Together we can globalise solidarity to provide new educational opportunities for those impoverished and vulnerable! Visit the 1 La Salle website **HERE** to take the

first step. We invite you to watch the following video message from Br Armin Luistro.
