# Lasallian Formation has now a new Pilgrim’s Handbook and it is available in lasalle.org

The digital version of "*Lasallian Formation for Mission: The Pilgrim's Handbook*" is finally available at lasalle.org and the printed version will also be available soon. More than a new *Pilgrim's Handbook*, it is a new reading of the reality and the vision of formation in the whole Lasallian Family.

This new *Pilgrim's Handbook* synthesizes in a single proposal the best practices and approaches of Lasallian formation: formation for mission, formation centered on the person, formative processes, formation by competencies, dimensions of formation, formation based on experiences, joint formation, among others. The *Pilgrim's Handbook* is a holistic and unifying proposal of formation for the whole Lasallian Family that places the Mission at the center.

"*Lasallian Formation for Mission: The Pilgrim's Handbook*" is the result of a collaborative effort of the Secretariat for Formation and Lasallians from different regions. Over the course of a number of years, the writing commission has developed this *Handbook* to assist in the formation of all Lasallians. The work presents a creative and dynamic vision of formation more attuned to the reality of the formation process.
