LEAD and IGBM recognized as Champions of Lasallian Solidarity

In his recent letter to the Districts, Brother Superior highlighted the support that the Lasallian East Asia District (LEAD) and the Lasallian District of Ireland, Great Britain, and Malta (IGBM) have demonstrated to the Lasallian Mission through their extraordinary contribution to the **1 La Salle Campaign**. Their support has been pivotal in advancing the shared goal of providing quality education to children and youth in the most vulnerable contexts around the world.

The **1 La Salle Campaign**, launched by our Superior General, is a global initiative aimed at securing the future of the Lasallian Mission. It focuses on addressing the needs of the poorest members of our Family and ensuring sustainability for our projects worldwide. Each year, the campaign channels the funds raised into vital initiatives submitted from every corner of the institute. These projects are designed to bring more children into classrooms and create lasting, transformative change through education.

The generous financial support from LEAD and IGBM will have a profound and direct impact on the lives of countless children, helping them access education and hope for a brighter future, while also supporting the establishment of a long-term sustainable fund for educational works in the most fragile sectors. Their contribution stands as a powerful testament to the spirit of solidarity and mutual care that defines the Lasallian family.

In recognition of their outstanding support, the Superior General has officially honored LEAD and IGBM as **Champions of Lasallian Solidarity**. This title reflects their unwavering dedication to the mission and their inspirational leadership in fostering a culture of generosity and compassion.

We are also aware that other Districts are actively organizing fundraising efforts to contribute to the **1 La Salle Campaign**, and we are deeply grateful for their commitment. We look forward to seeing many more Districts join this vital initiative, helping to expand the reach and impact of our collective mission.
