Presentation of the Document: Lasallian Spirituality

Today.In the following video we present a motivation for reading and reflecting on the document “Lasallian Spirituality Today” which we published a few days ago on **this web page**.

This video is an excellent resource to help disseminate this document in order to continue promoting the study of our spirituality. We invite everyone to share the existence of this document.In addition, in this second video you will find the presentation of the document that took place in two videoconferences on June 15th.

It is approximately 20 minutes where the authors explain the origin and structure of the document.More than 350 Lasallians participated in these videoconferences. In groups, they offered some ideas, in the form of brainstorming, to share the document. You will find a PDF file with the contributions of all the groups.

We thank so many people who have collaborated to continue deepening our Lasallian Spirituality.
