Reflection by Br. Julio César Álvarez Gutiérrez

Celebrating the Year of Spirituality and Catechesis leads the entire Lasallian Family to renew our own spiritual reality as faithful believers, or in relation to transcendence.

Our greatest involvement in this Year of Spirituality and Catechesis is to lead us to a considerable commitment to the peripheries, to which we must respond so that the bread that has been leavened continues to reach the vulnerable, the children and young people who walk alone through migration, and all those specific faces who do not enjoy the opportunity of a formal education.

We are called to turn our gaze to the Catechesis of the Young so that we continue to make the face of Jesus Christ alive, in each of the contexts where we live, to shelter all those who find themselves on the peripheries.

May the example of Our Lady of the Peripheries allow us to continue to touch hearts so that in our Lasallian Works everyone feels sheltered.
